Sa’adah Local Authorities and SCAMCHA honor NFDHR

NFDHR has been honored by local authorities, SCAMCHA and Social Affairs and Labor Office who have awarded NFDHR with Appreciation and Thankful Certificate as a result for its development and humanitarian accomplished projects at the water, health, and education sectors.

Within the previous years, NFDHR has implemented 10 water projects which are supported with clean energy system, rehabilitation of 21 health centers & 18 classrooms in addition to providing students with chairs and school bags.

8,582 beneficiaries of the rehabilitation works of 10 wells

Funded by YHF, NFDHR has accomplished the rehabilitation works of 10 wells at Sharqi & Gharbi Al Khamisin subdistricts, Khayran Al Muharraq, Hajjah governorate. The total beneficiaries is 8582 Including 3,591 IDPs of the most vulnerable groups. This activity is part of the integrated WASH /H&N/ FSL project that has been implemented by NFDHR at Khayran Al Muharraq and Mustaba’ districts, Hajjah governorate.

The aim of the rehabilitation works is to improve access to safe drinking water at the targeted districts for the IDPs in addition for the host community, which participate in alleviating women and children suffering.

The rehabilitation works has including civil works such well coverage as well as providing the targeted wells with pumping solar panels system.
Recommended Procedures in Food Assistance Distribution

National Foundation for Development and Humanitarian Response (NFDHR) has implemented a wide range of recommended procedures against any potential spread of Coronavirus in the country during distribution in Food Assistance Project - funded by World Food Programme (WFP).

These procedures aim to prevent overcrowding and preserve social distance of at least one meter by marking allocated spaces on the ground, distribute food to a specific number of beneficiaries every day; in addition to providing sanitizers and raising awareness among beneficiaries. The National Foundation (NFDHR) continues its efforts to update its procedures according to the latest recommendations.

It’s worth mentioning that NFDHR is targeting more than 126,000 households of the most vulnerable and displaced in 36 districts in Marib, Ibb, Baidha, Aljawf, Amran, Alhudaydah, Hajjah governorates.

NFDHR Launches 9th Installment of Unconditional Cash Transfer in Khairan and Mustaba

With the support of Yemen Humanitarian Fund (YHF), National Foundation for Development and Humanitarian Response (NFDHR) launches the distribution of the 9th and last installment of unconditional cash assistance in Khairan and Mustaba, Hajjah governorate.

NFDHR aims to deliver assistance to 980 HHs of the most vulnerable displaced groups through the implementation of Integrated Emergency Response Project, which comes to the end in its April cycle.

Throughout the distributions, NFDHR saves no efforts implementing a wide range of protective measures against the outbreak of Coronavirus pandemic (COVID-19); like: maintaining social distance, providing sanitizers, raising awareness among beneficiaries ... etc.
NFDHR provides medical services to more than 18 thousand beneficiaries in Hajjah Governorate

The National Foundation for Development and Humanitarian Response (NFDHR) has provided medical services to more than 18,000 in Khayran Al Muharraq District, Hajjah Governorate.

According to the statistics of the health and nutrition program at NFDHR, the number of beneficiaries of health and nutrition services reached 18,921 beneficiaries of the displaced and the host community during the period August 2019 to March 2020, including 3383 men, 6347 women, 4418 girls and 4773 boys.

The Foundation has established two medical clinics in the eastern and western Khamisim isolates as part of the activities of the Integrated Emergency Response Project in the water, food and health of the most affected communities implemented by the Foundation in Khayran Al Muharraq District in Hajjah Governorate funded by the Yemen Humanitarian Fund (YHF).

NFDHR holds a workshop to introduce the activities of the IDP Camps Management CCCM project in Sa’adah

The National Foundation for Development and Humanitarian Response (NFDHR) organized on ‘Wednesday May 20’ in Sa’adah city, a coordination workshop to introduce the activities of Site Support Management for IDPs, which will be implemented by NFDHR in Sahar and Assafra districts, Sa’adah Governorate, funded by Yemen Humanitarian Fund (YHF).

The workshop, which was held in coordination with the branch of the Supreme Council for the Administration and Coordination of Humanitarian Affairs in the governorate, with 25 participants, aimed at reviewing the project activities and its positive impact on beneficiaries and the importance of strengthening and coordinating cooperation between the institution and related parties in a manner that ensures the implementation of the project during the specified time period and reaching the targets.

During the workshop, Eng. Khaled Al-Laith, Sa’ada Sub-Office Mnager, pointed out the importance of the project to support sites management for IDPs in building capacity of IDPs households in livelihood skills, cash for work activity and providing minor maintenance support by connecting the IDP Hosting Sites to existing infrastructures which will positively reflect on improving the livelihoods of the targeted displaced persons.

Moreover, the project will target 14980 displaced people, including 477 people with special needs in Sahar and Assafra governorates.

Meanwhile, the project coordinator, Engineer Sadiq Handal, went through project implementation plan and selection criteria.

The various project activities aimed at improving the living conditions of the IDPs sites including people with specific needs, in addition to maintenance work and hygiene campaigns that will be implemented in camps.
NFDHR Launches the Distribution of Food Assistance in Ibb Governorate

As part of Emergency Food Assistance Project (EFA), the National Foundation for Development and Humanitarian Response (NFDHR) lunches the distribution of food assistance for April cycle – supported by World Food Programme (WFP) - in Ibb governorate.

NFDHR aims to deliver food assistance to 17804 HHs of the displaced and most vulnerable groups in Al-Mashana, Jebla, and Al-Dehar in the governorate.

Each basket of delivered food contains 75 KG wheat flour, 8 L cooking oil, 5 KG beans, 2 KG sugar, and 0.5 KG salt.

NFDHR Launches the Distribution of Food Assistance in Marib Governorate

Launching the April cycle in Marib city, NFDHR continues the distribution of food assistance as part of its Emergency Food Assistance project supported by World Food Programme (WFP).

NFDHR is targeting 21966 displaced and vulnerable HHs in Marib Al-Wadi, Serwah, Majzar, Mahelia, Rahba, Raghwan and Madghal districts in the governorate.

This distribution cycle is characterized by the implementation of prevention measures to limit any potential spread of Coronavirus pandemic in the country. Through its field team, NFDHR is working hard to operate and help beneficiaries stay safe while accessing lifesaving assistance.
NFDHR office in Marib starts the distribution of food assistance to displaced and affected Households

Thursday, 4 June 2020, the teams of the National Foundation for Development and Humanitarian Response (NFDHR) started the process of distributing the monthly food assistance (May cycle) provided by the World Food Programme (WFP) to the displaced and affected households in Marib Governorate.

The director of NFDHR’s office in Marib Governorate, Majed Al-Salahi, said that the Foundation targets 22,396 displaced and affected households in Sirwah, Marib, Madghal, Raghwan, Rahba, Mahilya and Majzar Districts.

Pointing out that the distribution process takes place amid strict precautionary measures to ensure the protection of workers and beneficiaries from the emerging of Coronavirus infection; such as, allocating each day to only 100 beneficiaries in each of the 30 distribution points in the targeted districts, as well as organizing beneficiaries and spacing them at least 1 meter between each other, in addition to providing sterilizers, soap and water, and sensitizing the beneficiaries of the need to wash their hands before entering the distribution points and after leaving them.

Al-Salahi added that NFDHR’s office in Marib Governorate is also in charge of distributing food assistance to the Districts of Na’man, Nati’, Maswarah, and as Sawma’ah in Al-Bayda Governorate, due to its proximity to Marib for 3,141 displaced, affected, and poor Households.
Unconditional Cash Transfer Contributes to Establish Income-Generating Projects

Adel Othman

Raouf Ali Salem is a young Yemeni man (around 30), lost his job due to the ongoing conflict, and was displaced from Hayran district to Khayran Almuaraq district in Hajjah governorate.

Salem worked in collecting plastic bottles, to sell them and bring money to his family; but selling cans barely provides the most basic needs to feed his family.

Salem was one of the beneficiaries in the Unconditional Cash Assistance Intervention, implemented by the National Foundation for Development and Humanitarian Response (NFDHR) as a part of the Integrated Emergency Response Project – funded by Yemen Humanitarian Fund (YHF) – for the most vulnerable and displaced groups effected by the ongoing conflict.

With grief, Salem described his situation after being displaced: “We had a hard time.

Every day, I used to collect and sell plastic bottles, sometimes I earn enough money to buy food for my family, but sometimes not”. He also said: “After I received the first installment of cash from NFDHR, I asked myself about how to generate a long-lasting income using this installment since cash assistance won’t last long, and then I thought about trading with poultry starting from December 2019 after I received the third installment of cash”.

Salem is one of 980 displaced people targeted with the Unconditional Cash Assistance who receive 45000 Y.R every month (until the closure of the project in May 2020).

With part of the received cash, Salem bought 20 hens, with which he started his small business in one of the districts’ markets (Almughaysila Market) where he generated a small daily income providing the basic needs to his family. After receiving the fourth installment of cash, he bought another 30 hens.

Upon receiving the fifth installment of the cash assistance, Salem bought hens housing. Poultry trading secured a daily income to feed his family, and helped raising his trading capital.

The living conditions of Raouf Ali Salem and his family has significantly improved in the last few months; trading with poultry provided a decent life for him and his family and no longer fears returning to collect bottles for living when the assistance stops. Raouf is working hard to expand his business and open a poultry shop in Khiran market. This will help improving his life standards and enrolling his children in schools.
Efforts fostering environmental sanitation contribute to improving the health status

Adel Orhman

Open sewage problem is one of the biggest problems that Yemeni families suffer from and are affected by throughout the country, especially in rural areas.

Wald Rabi’ and As Sawma’ah districts have suffered for a long time from the effects of insecure and non-covered sewage and defecations at the open areas that lead to facilitate the diseases spreading among the rural community.

The notionable uncovered sewage among the streets and residential neighborhoods, creating a fertile environment for vectors and pathogens, especially mosquitoes (SAM) among children under 5 years, and the spread of acute diarrhea and cholera.

Funded by YHF, NFDHR has conducted WASH interventions for SAM HHS & those at risk of famine in As-Sawma’ah & Wald Rabi’ Districts in Al-Bayda Governorate. To participate in securing a healthy environment, besides this, the hygiene promotion team has carried out 328 community awareness sessions regarding health messages, the importance of personal hygiene and educating families on good health practices. 15,402 people have benefited including 3,019 men, 3,142 women, 4,528 boys, and 4,713 girls.

NFDHR interventions have contributed in addressing the bad environmental situation at the targeted areas, improving sanitation process and combat defecation at the open areas which was one of the main causes of the diseases and epidemics spread, and as a result, it has reflected positively on improving families health status and it has contributed in providing a healthy environment.
NFDHR Launches the Distribution of Food Assistance in Aljawf Governorate

With the support of World Food Programme (WFP), the National Foundation for Development and Humanitarian Response (NFDHR) launches, in May 19, the distribution of food assistance for May cycle in Al-Jawf governorate.

NFDHR is targeting 33406 displaced and vulnerable HIs with in-kind and voucher transfers in the hardest places to reach in Bart Al-Anan, Al-Humaydat, Az-Zahir, Al-Ghayl, Al-Maslub, Khabb Wa Sh Sha’af, Al-Matammah, Al-Maton, Al-Khalq, and Al-Hazm, districts in Al-Jawf governorate.

The distribution started with implementing precautionary measures to limit any possible infection of Coronavirus pandemic (COVID-19); including preventing overcrowding and preserving social distance of at least one meter between beneficiaries, in addition to providing hand sanitizers and awareness.

NFDHR continues updating its measures in accordance with the latest recommendations in delivering lifesaving assistance.
